

Hamish's Top Tips for Keeping Your Pooches Entertained with Peamutt Butter

Looking for easy ways to entertain your pup using Peamutt Butter? We asked our Official Peamutt Butter Taster his favourite ways to enjoy the tasty treat and stay busy...

- **Barkin' good biscuits:** The most delicious post-walkies treat! My human often whips up a batch when I've been an extra good boy - but I could eat them all day, everyday! Find my pal Honey's secret recipe [here](#).
- **Can't go wrong in a kong:** Yum, the classic! I could spend hours chewing on my kong, especially when my human adds in a big scoop of Peamutt Butter. I absolutely love it and she's glad that it keeps me from stealing her socks, teehee!
- **Bath time:** I really, *really* hate baths - who wants to smell like daisies when I could be rolling around in lovely, squishy mud? Much more fun! But a dollop of Peamutt Butter on the side of the bath definitely makes my least favourite time of the week more bearable.
- **Pawsitively perfect pupcakes:** On super special occasions (like Sundays), my human treats me to [these](#) woof-tastic canine-friendly cupcakes. She loves that they're really quick and easy to make, and I love that they're so tasty!
- **Straight from the jar:** ...Guilty! The perfect end to a ruff day chasing leaves, I just can't get enough.
